

Dear colleagues,

Abstract submission for the 74th Annual Meeting of the British Microcirculation and Vascular Biology Society (BMVBS) 2024 is now open!

We are delighted to invite you to the BMVBS 2024 meeting, July 15th to 16th and an Endothelial Glycocalyx symposium on July 17th in Bristol, UK.

The conference will bring together renowned national and international plenary speakers, mid-career and early-career researchers and students to promote the exchange of ideas in the exciting field of microcirculation and vascular biology. The plenary presentations will be followed by a series of short talks, selected from submitted abstracts. The poster presentation, also selected from submitted abstracts, will cover the full breadth of the discipline and will provide another fantastic opportunity for presentations and networking.
